A meeting of the Crawford County Community Service organization was held at the Grayling Woman's Club, Tuesday, July 29. A discussion was held by the representatives from the different organizations present on charity work they had done this past year. After hearing this report, it was felt by all that a bigger and better job could be done through the combined efforts of all. Canisters are being placed this week in various places around town, so won't you please drop any spare change you have in the canisters.

A board of directors was elected to work with the different churches, organizations, clubs, etc. The board is composed of Mrs. Eli Beery, Mrs. Bernard Fowler, Mrs. Clarence Holcomb, Mrs. Alfred Harland, Mrs. Walter Truettner, Mrs. Rex Hawkins, Shirley Arnold, Mel Johnson and Alvin Moore. Mrs. Truettner was elected president of the board and Mrs. Fowler the secretary.

In one of the heaviest votes cast in Crawford County, Tuesday's primary brought out 1,447 voters as nine contests were presented to the electors.

Walter Confer defeated Delbert Case for nomination for Sheriff on the Democratic ticket.

Winning the seven posts for the county Board of Supervisors were: Don Gothro, Lawrence Gust, Earl Longworth, Roy Papenfus, A. J. Sorenson, Sal Truettner and Howard Taylor.

"WAY" is the shout from the gunner as an 8-inch leaves the muzzle of a self-propelled howitzer and own-range at Camp Grayling in a twilight firing last week. The gun and crew belong to the 1st, 182nd Artillery, of Detroit. This is a first for the

Michigan National Guard in that they have never possessed or fired the 8-inch SP's before. The 182nd is part of Detroit's 157th Artillery Group commanded by Col. Howard M. Dryden of Royal Oak. — 126th P.I. Det. Photo

### Crawford County Recreational Activities

A bumper crop of huckleberries is reported in Crawford County, and specifically in the burn-area north on Stephen Bridge Road off the North Down River Road. There is enough for everyone and a crop that has not been seen for years.

The canoe trails of the county are being used by an ever-increasing number of canoers both for day time canoeing and canoeing campers. Water levels of the Ausable Main Stream, the South Branch and the Upper Manistee River are normal and stream temperatures at normal summer levels. Patient early morning and evening canoers have a wonderful opportunity to view the wild life and bird life in Crawford County.

Trout fishermen on the quality sections of the trout streams are having luck during the day using Wakeley's Yellow Bug and Madsen Skunks. Evening fishing has become very selective but with small Adams or Stones some luck may be achieved. Saturday morning is "Review Morning" at Camp Grayling, and visitors to the area will enjoy the military scene as troops pass in review. The review is open to the public.

## **Attend The Church Of Your Choice**

## **of heroes**

It's pretty exhausting to have two big brothers that excel in everything!

Of course, there are advantages. Like the time a bully beat me up—my brothers followed me to school for two weeks. They wouldn't have fought him, but he didn't know that. Every night they worked out with me. Finally, I took him on and won.

My brothers are first-rate in everything—studies and athletics. There's nothing wishy-washy about them. If they don't think something's right, they say so. When there was a "walk-out" at school, they squashed it, practically single-handed.

Because our parents have always taken us to church and taught us God's way, my brothers are strong-principled and good. I aim to be like them.

Your church is a training ground for integrity!

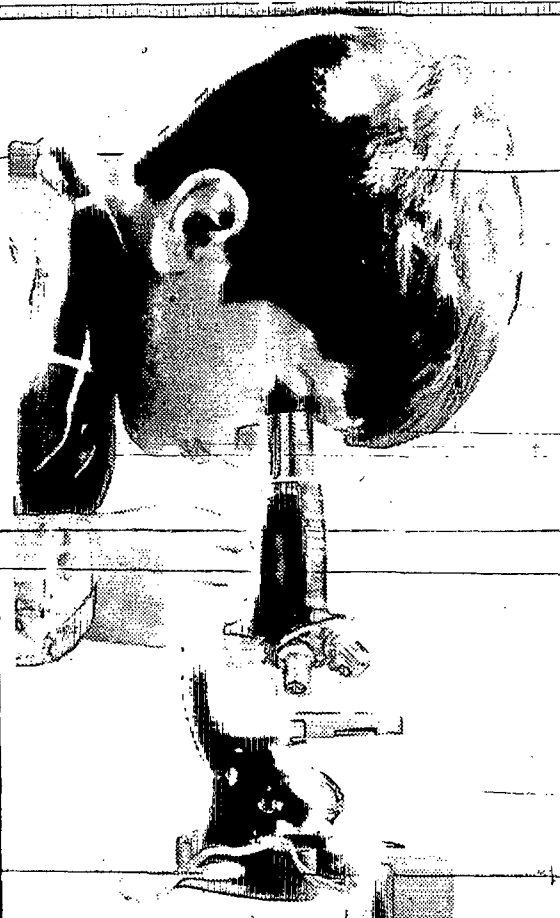

THE CHURCH FOR ALL... ALL FOR THE CHURCH. The church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

SPORTS FAN 1  
I  
BET  
YOU  
DIDN'T  
KNOW

By Bill Scheer

Did you know there was once a major football game in which the score — and even the winner — were changed 48 hours after the game was over... It happened in 1940... Cornell beat Dartmouth 7-3... But on the Monday after that Saturday game, officials of both schools looked at movies of the game and realized Cornell had scored its touchdown on an illegal down... Even though Cornell had an unbeaten season going, they said they would give up the touchdown, and thereby give up the victory... The result was declared reversed and it was officially changed in record books from Cornell 7, Dartmouth 3 to Dartmouth 3, Cornell 0.

I bet you didn't know... that Scheer Motors have their year end sale going full swing right now and business is good; so why don't you get the deal of your life on a car worth owning. Don't wait! See Bill or Spike or Bob Houston NOW!

## Overhaul Needed

One reads of lawlessness and rebellion in the U.S., one cannot help but wonder what the educational system.

John Chamberlain, one of the outstanding commentators on world affairs, in a recent article, writes a student trend. He refers to it as an anarchy-chamberlain says: "The very fact that the anarchy impulse can capture so many young U.S. is in itself a commentary on the sort of education they have been getting in our political courses."

view of student and other unpunished lawlessness seen in the U.S., one cannot help question the character of our educational system on countless billions of tax dollars are spent by citizens. It indicates that an overhaul of our educational program and teaching approach may be in order. As a start, we might teach that the rule of law is the basis of a free society and back it up with the threat of punishment of lawbreakers.

ANTUCKET, MASS., INQUIRER AND EDITOR: "It would be in order for the press to publicize the activities of the law-abiding as well as the law-defying ones. In this year of strife, perhaps the aspiring candidates can realize that the best support they desire comes from the people of this country and 'law and order' mean just what they represent."

## Interesting Events In Grayling 23 Years Ago

INTERESTING ITEMS OF NEWS GATHERED FROM THE FILES OF THE AVALANCHE OF 23 YEARS AGO

August 9, 1945

Ross Sinclair, Detroit factory foreman shot 795 out of a possible 800 points to take first in Southeastern Michigan Rifle and Pistol Association's midsummer smallbore rifle tournament, but he was pushed all the way by Charley Bottoms of near Grayling. Charley, a "Grayling woodsman," as the Detroit Times termed him, wound up the shoot with a 794 score, only one point behind the winner. As Charley says, maybe the boys up around Lovells will quit ragging him now. They certainly should as 794 out of a possible 800 is nothing to sneeze at.

Thirty-three years is a long time in anyone's life, but to stick to one job under one employer over that stretch of time really indicates a man likes his job. Saturday, forty fellow railroad employees gathered at the home of Harold Edwards to tender a farewell party to Charles L. Smith, who is retiring after serving as one of the carpenter force of the Michigan Central and New York Central for 33 years. The evening started off with a big supper, with speeches following, retired Section Foreman Beaden, M. S. Flowers, J. M. Dreyer and Vern Oliver acted as toastmasters. J. W. Westwood, assistant division engineer in behalf of the fellow employees, presented Charles with a mighty nice and handy lot of gifts. Smith responded in a happy vein.

Mr. and Mrs. Alec Mason and Mr. and Mrs. William Strope of Lake Margrethe spent last Friday afternoon and evening down river with friends.

Mrs. Luella Shaw and sister-in-law, Mrs. J. H. Patterson of Detroit, who is visiting her and Mrs. Signe Randolph spent Monday in Bay City.

Halfred Kittleman of Chicago has been spending several days with his family at Lake Margrethe.

A new son, Dennis John, was born to Pvt. and Mrs. Clinton A. Maxwell of Mayville on Monday, Aug. 8, at Mercy Hospital. The little fellow's daddy is expected home on furlough most any time. Mrs. Clinton is the daughter of Rev. and Mrs. E. A. Benedict, who had gone to Mayville on Sunday and brought her to Grayling. Kenneth Clinton, another son is staying with the Benedicts for a time.

Pearl Anderson, Theresa Lofgust, Tom Brush and Robert Johnson are spending two weeks at the Carl E. Johnson cabin on the AuSable. Mr. and Mrs. F. Blanchard and sons, Pfc. Don and Allen accompanied Johnson back to their homes in Detroit Sunday after a four day visit.

Sigurd E. Johnson and family of Saginaw have been spending part of their vacation in Grayling with his parents, Mr. and Mrs. Algot Johnson.

Eleven friends of Miss Sally Ann Gross helped her celebrate her birthday on the first of August at a 6:00 "hot dog" supper held out of doors. Miss Shirlee Souders of Mason was a out of town guest. Sunday the two girls left for Shirlee's home, where Sally Ann will visit for two weeks.

Mr. and Mrs. J. E. Strong with Bobby spent the weekend in Flint. Bobby with his grandparents, Mr. and Mrs. C. J. Elston. Mrs. Strong is leaving this week to make an indefinite visit in Milford, N.Y. at the home of Strong's mother, Mrs. Nora Strong.

Fay Christenson returned Tuesday morning from Plymouth, where she had visited several days at the home of Mr. and Mrs. Donald Bovee.

Pvt. Robert M. Hayes returned to Fort Knox, Ky., Tuesday, after spending a week at home. His brother S/Sgt. O. W. Hayes accompanied him to De-

BARRY HOLMES who is currently serving in the Air Force at Patrick AFB in Florida fills in his off-duty hours playing baseball with the Melbourne Braves. Barry starts at either second base or in the outfield. He is the son of Herbert and Mary Holmes of Grayling.

## The Michigan Mirror

By Elmer E. White

### Personal Income Up

Personal income in all states increased considerably over a year ago, but Michigan was third from the top in percentage increase. Alaska and Hawaii both enjoyed a rise of 12.8 percent, while Michigan scored a 12.1 percent gain. The national average was 7.9 percent. Statistics were compiled through April of 1968.

Some of the increase was due to higher Social Security payments and the higher minimum wage, but business also moved along at a steady clip on all fronts. Hard goods industries in Michigan produced at full tilt while auto production went into overtime. Construction also blossomed out.

The new income tax surcharge, strikes and an expected drop in employment is expected to soften the gains in economic activity for the next quarter.

### Court Reorganization

District Courts in Michigan will replace present Justice Courts and Circuit Court Commissioners January 1, 1969. The 1963 Constitution granted the Legislature five years to design a judicial system. The lawmakers took the full five years to fulfill the mandate.

Senator Robert Richardson (R-Saginaw), chairman of the Senate Judiciary Committee, notes that the District Court will be the court with which most people have contact. Highlights of the new system, according to Sen. Richardson, include:

One hundred eighty-two attorney-judges in 99 districts apportioned on population and caseload experience, with annual state salary of \$18,000 (local supplement to \$27,500) and uniform state court rules. Candidates must file non-partisan petitions or \$100 filing fee with the Secretary of State by 4:00 p.m. on July 2.

Independent financing of county and city-metropolitan districts to insure local control of operation and capital outlay.

Local option for 57 cities in 3rd Class (metropolitan) districts to exempt that district from the system if the city or cities comprise 50 percent or more of the district's population, retaining all municipal courts within such a district, eliminating a possible total of 80 district judges.

A magistrate system in all counties electing less than two judges by itself to assist the judge in arraignments, bonding and sentencing of most traffic, fish, game, and conservation violations in order to promote efficiency and accommodation, especially in sparsely populated areas. Magistrates would be provided in other counties if recommended by the judges and approved by the Board of Supervisors. Compensation set by Board not below \$5,000 annual salary or per diem of \$20 per day, \$10 per half-day.

Criminal jurisdiction of all misdemeanors, including those now handled by Circuit Courts, such as negligent homicide, and exclusive civil jurisdiction up to \$3,000, twice the amount now allowed in Municipal Courts, re-

lieving some Circuit Court backlog. Appeals to Circuit Court will be on record, eliminating a new trial in Circuit Court as now required.

A Small Claims Division for civil actions up to \$300. If both parties wish to use this service, they must waive rules of evidence, jury, attorneys, and appeals and abide by the decision of the Court. This has worked well in several other states.

Judges will be elected this November to begin serving January 1, the exact date of abolition of the present Justice system. Sen. Richardson expressed concern over the new system, noting that a few unfair or dishonest Justices helped cast a bad image over all Justice Courts.

"The Legislature will undoubtedly watch operations (of the District Court) very closely in 1969 to see where improvements can be made. I believe we have the structure for a good beginning," he concluded.

**Older Citizen Aid**  
Assistance in solving many problems faced by Michigan's older citizens is available, often only a short distance away. The knack is knowing who to contact and where, reminds the Michigan Commission on Aging.

A new "Directory of Services" is offered free of charge by the commission with data compiled on a county basis. General information outlines programs and assistance available to older people, now to apply for such benefits as the Homestead Tax Exemption, and opportunities in employment, recreation and education.

County facilities are listed alphabetically for major areas of concern and make it convenient to find what services are available locally. The directory may be obtained by writing the Michigan Commission on Aging, 1101 S. Washington Ave., Lansing 48913.

## Memo from Merrily

By Merrily Locasso, Extension Home Economist

On bright, sunny days, you may think there is plenty of light in your home. But it may not be the quality of light that you want.

In a well lighted room, light is evenly distributed and free from glare, bright spots and deep shadows. Light shouldn't reflect unfavorably from large surfaces.

Improving the lighting in your home needn't mean a complete replacement of all the lighting fixtures or lamps. But it could mean changing the color of the room.

Walls of light, pastel colors and ceilings of white or near white using flat or low gloss paints can make it more comfortable. Using sheer curtains and draperies in light and pastel tints helps too.

Even though you actually have enough light in the room, you sometimes can improve the quality of the light by adding one or more portable lamps for better balanced lighting.

If lamp placement is inconvenient, add additional convenience outlets. This can prevent dangerous over use of "cube" plugs and extension cords. Surface wiring strips may be less expensive than adding built-in convenience outlets. But you should be sure the surface wiring system you choose is the correct size and carries the Underwriter's Laboratories seal of approval.

For little cost you can replace outmoded bare bulb fixtures with well-shielded ones. This helps diffuse the light, making it easier on the eyes.

If you're willing to do more extensive building and redecorating, structural lighting in a valance or cornice may improve the quality of light in the home. Structural lighting is well suited to living areas where there is no ceiling light or only one. And eight to 20 feet of wall lighting will add a feeling of spaciousness to the average room. In addition to making lighting more flexible, it can also be a valuable decorator touch. Use a 100-watt bulb; it gives as much light as 6 25-watt bulbs, but only uses about two-thirds as much current.

Homemakers should check their lamps to make sure shades follow standard specifications for good lighting. These specifications are available from Cooperative Extension Service home economists and from most power companies. In general, if the bulb is too high and restricts the amount of light going down from the lamp, small risers can be added to raise the shade. They're placed on the "harp," the metal piece around the bulb that holds the shade.

If the bulb is too high and exposes the bare bulb below the shade, you can replace the shade with a deeper one, use a shorter harp, or add a different diffusing bowl around the bottom.

Shades of translucent materials — ones that allow some lighting through without glare — with white lining and open tops — give softer, better light.

The Board of Trustees of Kirtland Community College has made arrangements with the Forrester Construction Company, the contractor building the first unit of the College, to complete a section of the building to enable the College to open at the site on September 30.

In addition to the part of the building that will be completed, interim units will be installed that will be used for auxiliary services over the next few years and can be used temporarily as supplementary classrooms.

Bids were received last week on five self contained units from the following firms: Imperial Equipment Company, McFadden Corporation and Educator Sales, Inc. The contract will be awarded to Imperial Equipment Company, the low bidder, and these units will be installed early in September in plenty of time for the September 30th opening.

Upon final completion of Unit I of the permanent campus buildings, the units will assume their intended use of housing the Cosmetology Lab., Bookstore, Cafeteria, Learning Development Lab., and Faculty Offices.

### Feldhauser Reunion Held

The annual Feldhauser reunion was held at the Hartwick Pines July 28, with 48 answering the roll call. The eldest member was Ed Feldhauser, 86 years of age, and the youngest, Renee Susan Bourcier, one month daughter of George and Sue (Wiggins) Bourcier of Saginaw. Gifts were presented to them and there was a grab bag for the children.

It was planned that next year the reunion will be held at the Pines as usual, on the last Sunday in July. Wilma Roth of Bay City, and Ruth Cruz of Alma will be in charge.

Coming the furthest were M. Sgt. James Feldhauser and family of Minot Air Force Base, Minot, North Dakota. They have since returned.

## River Land Will Be Developed

By Willard Bosserman  
County Extension  
Natural Resource Agent

If you take a look at the new county road maps of Crawford and Roscommon counties, you will see that much of it is colored green. This green coloration indicates publicly owned lands. The public owns about two-thirds of the land in the two counties. Another look at the maps show that most of the land adjacent to the rivers and lakes is privately owned.

Land adjacent to water is much sought. More and more people are coming to Crawford and Roscommon for summer home sites. The population is increasing. The express ways make it easier to get up here for short weekends.

With these facts in mind I predict that the next thirty years will see much of the river property subdivided and built up with cottages, summer homes and year around residences.

This has several implications. One is that we will be thankful for the state land which will preserve the open spaces that people seek in northern Michigan.

Secondly the publicly owned land will be needed as a sanctuary for wildlife. The third implication is that now is the time to take action to protect the front from deterioration.

### Grayling Township Has Taken

the lead in this direction. There is a lot of the Ausable River outside of Grayling township which has not been developed.

An opportunity exists to do something before it is too late. Too often we lament the fact that nothing has been done until it is too late. Now something can be done if there are enough progressive people to do the job. I believe the two counties abound with progressive people.

### Interlochen Tickets At Bear Museum

INTERLOCHEN — Interlochen is trying to make concert-going at the National Music Camp a little easier for residents and resorters in nearby towns and cities by bringing its ticket facilities directly to them once a week. In short, the camp is operating a traveling box office that permits people to buy tickets at home and thus avoid standing in line when coming to music, drama or dance events here.

Grayling is among the towns being visited. The traveling ticket salesmen from Interlochen are at the Fred Bear Museum from 10 a.m. until noon each Thursday.

**Frederic Clubs Build Bridge**

The pictures shown here portray the building of the Frederic Sno-Bird Sportsman's bridge over the AuSable River in Frederic, at the old dam site. The bridge was built by members of the two clubs for the enjoyment of all. The logs were donated by the Conservation Department and sawed free by the AuSable Woodworking Company. The clubs plan future recreational development at the site with the permission of the Conservation Department. The goal of the Sno-Bird Club and the Frederic Sportsman's Club is to promote a better understanding between the general public and the machine owners. What money is involved in the project comes from the dues paid by the Sno-Bird members. The site provides a wonderful place for family picnics and reunions. The club members will always do their best to keep it neat and clean at the area and ask anyone using the site to do the same. All the members of the two clubs are grateful to Lowell Bindschattel who thought up the idea and was the architect of the bridge. They sincerely hope it will add to everyone's pleasure.

Unacademic Freedom

Around the turn of the century there was an educator by the name of Dewey who launched the idea of what is known as "progressive education."  
And this is perhaps what causes the trouble in the college campuses today. In Dewey's time, the biggest thing going was to set fire to the opposing colleges before they could hold their pre-Big Game rally. Or to paint the sidewalks with the school color.  
This then progressed to swallowing goldfish, tearing down goal posts, and even crowding out numbers of students into telephone booths.  
And now it has progressed to seizing college buildings, taking over school offices, burning books and furniture. And such has education progressed that there are even some faculty members who are as progressive as the students.  
But as education has become more "progressive" so has the burden of taxes placed on the average citizen for education become more progressive. In fact, much more progress could well break his back.  
Perhaps the two most overlooked factors in this whole sorry mess that has disrupted the college campuses are academic freedom and the taxpayer.  
This academic freedom cry raised whenever the college is National Federation of Independent Business

## Traffic Accidents During 1967 Reached All-Time Record High

The National Safety Council reports that 53,100 persons died in traffic accidents during 1967, an all-time high—1,900,000 suffered disabling injuries and property damage amounted to \$3.5 billion.

In the past four years our annual traffic death toll increased more than it did in the 16 years between the end of World War II and 1961. Proof exists that accident-prevention techniques can provide results. From 1946 to 1961 the rate of traffic fatalities was lowered from 9.8 deaths per 100 million vehicle miles to 5.2, a reduction of 47 per cent. This rate turned upward in 1962, reaching 5.7 in 1966. In spite of sharply increased vehicle-miles of travel in 1967, the rate was reduced to 5.5.

During 1967, someone died in a traffic accident every 10 minutes—a man, woman or child was injured every 17 seconds—a property damage accident occurred every two-and-one-half seconds.
